

REMARKS

Applicants point out that claims 33-38 require (1) clocks having high and low periods that do not overlap, (2) the clocks to control whether or not power is supplied to the power rails and (3) for claims 36-38 that the latches, circuits and power rails be on a single integrated circuit, none of which features are taught or suggested in the combination of the previously cited art.

CONCLUSION

If Examiner believes that anything further would be helpful, Applicants invite the Examiner to contact the Applicants' representative at the telephone number listed below. The Director is hereby authorized to charge and/or credit Deposit Account 09-0456.

Respectfully submitted,
